

TreeTop Challenges

Our Expectations:

Don't leave Kinglake Forest Adventures with regrets of missing out. Stretch your comfort zone (even just a little) with some of our exhilarating climbs and challenges.

Our Hard Rules:

- You must be of a size that fits into our harnesses. Yes we have small ones but generally 5 year old is around the bottom end. We will assess each adventurer on an individual basis.
- You must be under 120kg. It's a manufacturer restriction of our auto-belay equipment. (No restriction on mountain bikes however).
 - You MUST attend the briefing. No ifs or buts accepted.
 - Our harnesses and helmets must be worn. No negotiations.
 - Be shoe smart. Wear closed toe runners or outdoor shoes.
- **Understand this:** We all know climbing into TreeTops is risky, that's partly why we do it. We are the leaders in safety, but Mother Nature and your behaviour are out of our control, so you need to take ownership for your own risk taking. Make sure you complete our online waiver form before you arrive. You'll find a link at the bottom of your booking confirmation email.

Our Handy Hints:

- Pack your climbing gloves. If you don't have any, no sweat, you can purchase some entry level ones here.
- Bring your camera so you can capture your daring escapades. We have Go Pros for hire too!
 - Oh, and we only close for lightning – so bring a raincoat if it looks like rain.
 - Look for the tick with the "Camp/Adventure" operator endorsement.
 - And don't forget your sense of adventure!
